

January 1, 2013

NAME CHANGE

Our company has been in the supply chain business since 1938, first as manufacturers' representatives for sixty years and now, since 1998, as a design and manufacturer of special application assembly tools and gages. The name, Production Tool Company, has served us well and we will continue using it as a base operation company but in an effort to better tell the world what we do, we are going to be doing business as "ASSEMBLY TOOL SPECIALISTS, INC.", beginning January 1, 2013.

We will continue our same service level to our customers with "NO-MAR" Gap and Flushness Gages and with "Mutilation Prevention" assembly tools. The gages will continue being marked with the Production Tool Company name or the PTCO logo.

Our address will remain the same and the employee contacts, both inside and outside, will continue to be the same smiling faces and cheery voices. Purchase orders and payments to be addressed to Assembly Tool Specialists, Inc., at 9002 Dutton Drive, Twinsburg, Ohio 44087.

There will be one important management change. We are becoming a woman owned company as the majority stock owner is now Ms. Jackie Ahrens, who will also be the CEO. Mr. Ron Carpenter will continue to be the President and R&D Director. He will also take on the expanded duties as Tour and Travel Researcher. In that capacity he will be visiting old friends and exotic places.

We realize that all of our present customers will need to change some of their records but we hope this decision doesn't cause any hardships or confusion to anyone. We want to thank everyone ahead of time for your patience and understanding and if there are any questions please contact us.

Sincerely,

Jackie Ahrens, CEO
Production Tool Company and
Assembly Tool Specialists, Inc.
